Breast Cancer: late iatrogenic effects of radiotherapy and systemic adjuvant treatments

Colloque 30 mars 2006, Villejuif, France

Contact : Françoise Doyon doyon@igr.fr

Workshop March Thursday 30, 2006, Villejuif, France.

Breast Cancer: late iatrogenic effects of radiotherapy and systemic adjuvant treatments

8.30 – 8.55	Participant registration	
8.55 – 9.00	Welcome	T. Tursz
New Primary Malignancies (NPM) after radiation treatment		
The Epidemiological evidence		
Chairmen: P. Hall, M. Tubiana		
9.00 – 9.30	Recent data on the epidemiology of radio-cancerogenesis	P. Hall
9.30 – 10.00	Recent data on NPM after breast cancer treatment	F. de Vathaire
10.00 – 10.30	NPM following breast cancer : meta-analysis of clinical trials	S. Darby
10.30 – 10.45	Discussion	
10.45 – 11.15	Coffee	
Experience of each team		
Chairmen: S. Darby, F. de Vathaire		
11.15 – 11.30	Radiation and tobacco in lung cancer following breast cancer	K. Czene
11.30 – 11.45	Long-term effect of ionising radiation: the Swedish hemangioma series	M. Lundell
11.45 – 12.00	The IGR experience	C. Rubino
12.00 – 12.15	The Institut Curie experience	Y.M. Kirova
12.15 – 12.30	Discussion	
12.30 – 13.30	LUNCH	
NPM after adjuvant medical treatments		
Chairmen: T. Fornander, C. Hill		
13.30 – 13.45	Chemotherapy : epidemiological studies	M.C. Le Deley
13.45 – 14.00	Chemotherapy: randomised evidence	J. Bergh
14.00 – 14.15	Tamoxifen : randomised evidence	T. Fornander
14.15 – 14.45	Discussion	
Other iatrogenic effects of radiotherapy		
Chairmen: G. Gagliardi, J. Bourhis		
14.45 – 15.00	Dementia following cancer treatment	P Hall
15.00 – 15.30	Cardiac pathologies following breast cancer : epidemiological survey and meta-analysis	S. Darby
15.30 – 15.45	Discussion	
15.45 – 16.15	Coffee	
Other iatrogenic effects of adjuvant medical treatments		
Chairmen: U. Ringborg, S. Delaloge		
16.15 – 16.30	Chemotherapy : cardiovascular events	S. Delaloge
16.30 – 16.45	Tamoxifen : cardiovascular events	T. Fornander
16.45 – 17.15	Discussion
